Mr. Imam Muhadi (Indonesia)

(imamgagasan@gmail.com)

I was born in Medan November 1992. I live in Pekanbaru city now. Lately there was an incident that happened in Riau province, but its because of human mistakes. It was forest burning. The haze almost covered a half of Sumatra island and some other nations such as Malaysia and Singapore. When the haze became worst, I volunteered to give free masks to the people in the street. The other volunteers that I enrolled teach in the foundation. I am of the one participants of LBD4 in Manila Philippines. I really hoping after joining this program to get knowledge and confidence to develop a new concept idea for volunteering, especially in smoke haze disaster area in Riau. It has become an annual disaster in Riau.

Recently, I am still the member of English Zone Community in Riau, you can contact me at imamgagasan@gmail.com and facebook imam muhadi
