

Demonstration and Distribution of Survival Kits in Subic, Zambales

By PSG Officers of St. Paul University, Quezon City, Philippines

Briones, Tin

Gatlabayan, Aila Marie

Maderal, Kevin Eric

Salazar, Pamela

Tecon, Sarah

Rationale

This project that will be done by the student council of St. Paul University Quezon City focuses on the improvement of the awareness and preparedness of the indigenous students of Manganvaca, subic, Zambales where the students live in a dorm. A demonstration and distribution of the survival kits will also be given to them that will be useful in times of disaster.

Objectives

1. To improve the awareness and preparedness of the indigenous people on disasters
2. To provide and distribute survival kits to indigenous people of Zambales.
3. To demonstrate the uses of the tools in the survival kits.
4. To be able to educate them about disasters and its effects

Implementation Plan

- Demonstration of the uses of the different tools in the survival kit that will be used in times of disasters
- A brief background will be given to give a little knowledge on the understanding of the purpose on using the survival kits.

Implementation Plan

- The project will be done in the Aeta community of Zambales, an adopted community of the Sisters of St. Paul of Chartres.
- Distribution of Survival Kits
 - First aid kit
 - Whistle
 - Water
