

You and I Prepare for Disaster

**Created by:
Sr. Adelina Soares and Daralynn A. Ansay**

Vision

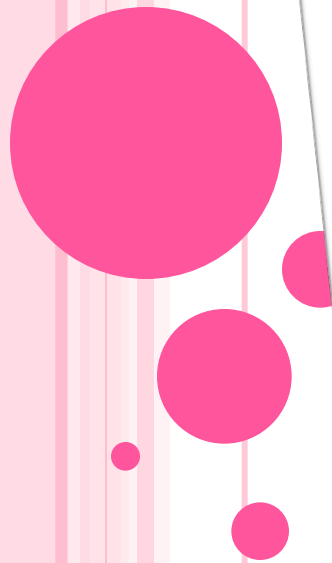

This project is to develop awareness of disaster prevention among the grade school students of Kamuning Elementary School.

**READY,
SET,**

GOAL.

- ❖ Involving the grade school students to participate in preventing disasters.
- ❖ Involving the grade school students to participate in managing disasters.

❖ Developing their responsibility towards the environmental care of the society.

❖ Strengthening their knowledge on how to prevent disasters

PROPONENTS:

Grade School students of Kamuning
Elementary School

Institution: Kamuning Elementary
School

Country:

Philippines

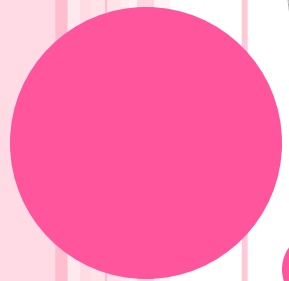

RATIONALE:

This project is intended to answer “how and why” questions of grade school students of Kamuning Elementary School about the different kinds of prevention, before any disasters occur by teaching the grade school students about the techniques and strategies on how to protect themselves and help the society before a disaster occurs.

There are different topics that will be discussed on disaster management. This will be done monthly. To engage the grade school students participation in each teaching session, we will conduct a seminar and drills for them to be equipped with the basic knowledge they needed so they can act appropriately to a certain situation.

Objectives:

- ❖ To develop students' awareness in preventing all kinds of disasters
- ❖ To know the effects of climate change and cause of disasters
- ❖ To promote a sense of responsibility and care for environment
- ❖ To help them to utilize their learning.

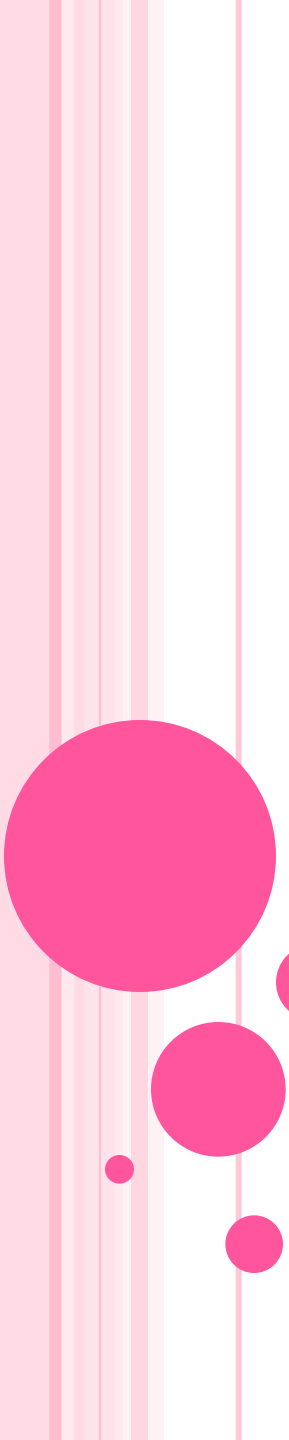

Steps in implementation

❖ We will coordinate with our language teachers of SPUQC to give language proficiency to the freshmen students of different programs, with a fee. The fees from this will be used for supplying the expenses needed in implementing of this project.

Implementation Plan:

We the education students who are in-charge of this project. We will coordinate with our program chairperson of education society, vice-president for academics, program chair-person of student's council and the principal of Kamuning elementary school. All the education students of St. Paul University Quezon City majoring in English will also participate in the implementation of this project.

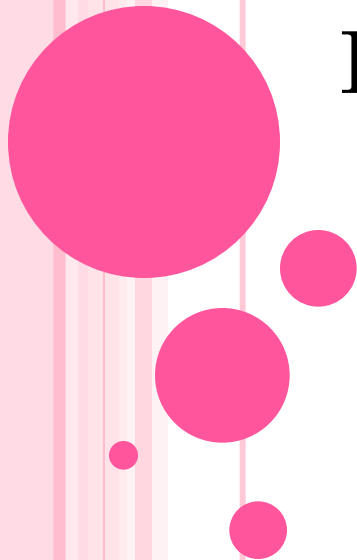

❖ We will visit the school and ask and coordinate with the principal and the teachers about the venue that we will use for teaching.

❖ we will start the real implementation in the months of July to December
