

Martha Marcela Rodríguez Alanis (México)

(iibmarcelardza@live.com.mx)

I live in Monterrey Nuevo León, Mexico, I am MD. Dermatologist, PhD Bioethics, and General Director, Institute for Investigation of Bioethics, Monterrey, Mexico. I am Visiting Professor in Bioethics and Dermatology, at AUSN. I am President of the Mexican National Academy of Bioethics, Chapter Nuevo Leon. My hobbies are the reading and swimming. Bioethics has been a way of life, where I had the opportunity to build new pathways to develop educational and cultural bioethics .

My goal continues with the incursion of bioethics in the different levels of education and to share my research to recognize the elements that build relationships from the differences of the people but a better making decision and help to do the peace.

The most important for me is the opportunity that I learn from your experiences. I am grateful for the opportunity to be a part of the Ninth Youth Peace Ambassador Workshop
