Khalifa Zayid's Action Plan

PEACE ENGLISH EDUCATION

The Project is About:

Inserting/implementing some topics related to peace in the English Language Curriculum in the public schools starting from grade 5 and ending by grade 12. Those topics will be inserted in different forms:

- a. Texts
- b. Activities
- c. Projects

The Aim of the Project:

The aim of my project is to spot the light on the issue of “Peace” explaining what it means from different visions and what are the consequences of the opposite concepts of it. As a result, I expect the Omani students will have a better understanding and appreciation to this issue. Also I expect that they are going to have the want and the courage to help people who are not living in peace.

The Target Group

Students from grade 5 to grade 12 and, indirectly, the teachers themselves.

The Process

- First, a group should be formed including teachers and at least one curriculum designing expert.
- Second, a classification research is needed for the texts, tasks and activities that the group will decide to include and the texts that are already part of the curriculum.
 - Third, evaluate the work done by the project group, and then by the Ministry of Education.
- Fourth and last, present the project to the Ministry of Education.

Obstacles

- The time the preparation of the project and its application is going to take is expected to be very long.
- Convincing the teachers to participate in the project.
- If the project is applied, nothing can guarantee that the teachers will deliver the message as it is intended to be delivered.
