

Muhammad Ziaul Huq (Bangladesh)

(zhshimul@gmail.com)

I am a student of MFA at the Department of Ceramics, Faculty of Fine Arts, at the University of Dhaka, Bangladesh. I'm working at CCL (Citizen Climate Lobby) as a Deputy National Manager. I'm also the General Manager of CHDM (Center for Human Development and Management). In addition, I am the founder director of Alor Michil (an IT base education for rural area people of Bangladesh).

I have visited some countries in the world including Thailand, India, Bhutan, Nepal, Malaysia, some in the EU, UK and USA as well as participated in different international workshops, trainings and conferences.

I am trying to change and to prepare myself to bring positive transformation to build a peaceful world and also to work with Global Youth Leaders to achieve this goal. I want to light a candle and to bring smiles to the faces of the world's underprivileged children.
