

Mr. Aditya Nepal (Nepal)

(aaditya.nepal@yahoo.com)

I was born at Biratnagar, Nepal one of the cities in East Nepal. I was born and was raised in a family that taught me about all the good things. I am an easy man to get along with because I have a sense of humor and curiosity about other people's personal around me.

I am a student of faculty of Management in Tribhuvan University. Everyday I have plenty to do, both in the lecture and organizations outside of college. I attended different managerial program which is focused to the youth and involves in youth organization in Nepal.

I am interested in joining the Youth peace ambassador program because I think the program is very useful for me and beneficial for others and the environment around me even for the world. Another reason why I am interested to participate, to learn how to develop an action plan and share my views and ideas about and make a network. I hope what I get after following this program, I can use it for peace in the environment around me.

For knowing me please email and I will be happy to meet more friends on Facebook.
